2. Relative to the [] list, all those individuals shown with an asterisk before the name hold TAGBOARD-3. All others hold TAGBOARD-2.

3. As is well known to your office, in the early years of the TAGBOARD program, access was granted based on the formal approval and briefing on the OXCART program. Formal execution of oaths for TAGBOARD was infrequently accomplished. If an individual had a need to know and possessed the "O", he was briefed. Lockheed seldom required their personnel to execute an oath. This office has requested an up to date list of all LAC employees holding TAGBOARD. Hycon [] maintained rather accurate records relative to TAGBOARD briefings. This office has a high regard for the professional competence of [] at [] and accepts these lists as accurate and valid.
